EXECUTIVE SUMMARY

The Airport Manager of the Napa County Airport, Martin Pehl, will update the Commission on the status of the airport and future on site developments. Airport Staff are working on an update to the Airport Layout Plan (ALP) to implement changes to taxiway configurations as requested by the Federal Aviation Administration (FAA). These change may result in minor alterations to the secondary runway's configurtion (Runway 18L, 36R). As such, the revised ALP, when complete, will likely be subject to ALUC review. This presentation is intended to inform the Commission of this current planning effort in anticipation that the revised ALP will be before the Commission some time in 2014.

The Airport Manager will also update the Commission on other on-airport business and be available to respond to Commission questions or comments. This is not a public hearing, but the Commission may take

public comments at the Commission's discretion.
