Hi Dana,

On behalf of my client we hereby withdraw the referenced application. Any County charges related to approved Erosion Control Plan #P06-01508-ECPA should be billed against that account and the owners will be responsible for allocating charges to the correct property. This arrangement will also apply to the required security which has already been submitted for #P06-01508-ECPA. We will submit written documentation of this agreement within the coming weeks. The deed restriction for mitigation regarding this parcel will be recorded this week. Please let me know if you have any questions. Thank you.

Jim
